

One University. One World. Yours.

LIBERATED LEARNING – Hosted Transcription Service

If you're a student who needs help with note taking during fast paced lectures, a speech recognition powered "hosted transcription service" may help.

We are now accepting *students from any age* range who are currently enrolled in a postsecondary institution in Canada.

How this system works: simply record your lecture; upload the audio to Hosted Transcription Services (HTS) and it will transcribe your class into a multi-media transcript so you will have the most accurate study notes possible. Apply to participate at www.transcribeyourclass.ca or contact Janice Stevens at Janice.stevens@SMU.ca
